Newsletter / Nuusbrief: April 2015

THE PRESIDENT, NDAC COMMITTEE AND MEMBERS

Special thanks to Gustav & his team for hosting a superb Onderberg Specie Bonanza during March 2015. Feedback from members and others who fished the comp has been excellent and many stated that this was the best organized fishing event they have ever fished.

Gustav aan jou en jou span nogmaals baie dankie vir al julle harde werk en opoffering, dit word opreg waardeer. Baie geluk ook aan Johann Mare en sy span wat die kompetisie vir n derde keer na mekaar gewen het, dit will gedoen word. Baie dankie ook aan almal wat die "Henno fonds insameling" so wonderlik ondersteun, dit word opreg waardeer.

Gary Larkan, Trevor Dubber, Glen Coertzen & Mark Coomer fished for NDAC during the Richards Bay Billfish Interclub and ended 2nd. They released a black marlin of approx. 150kg. Trevor Dubber has also been chosen as Angler of the month for this fine release. Well done Trevor.

Baie geluk aan Sybrand van Vuuren wat die voorsitter is van Hoedspruit Diepsee Hengel klub en ook lid is van NDHK met sy verkiesing as 'n Protea hengelaar. Sybrand ons is baie trots op jou.

The Inhaca Challenge entries are filling up and sponsorship commitment of this comp is progressing well. The number of boats will also be limited so those wishing to fish please get your entry forms to Gavin to avoid disappointment. Gavin and his team are again excelling with hosting a different Inhaca Challenge which will be held at Camp Carlos as it was 10 years ago.

NDAC would like to have a club team fish for NDAC during the All-Inland & OET comp during May 2015 at Sodwana. Any member wishing to fish for the club, is requested to contact myself or any committee member regarding this. NDAC will sponsor the team very generously for this tournament.

The next tackle box will be held at the club on the 22th April 2015 and will be about game fish baits & tackle. This promises to be very informative and all is welcome to attend.

Yours in angling
Edwin Freeman
NDAC Chairman

News Snippets / Nuus Brokkies:

Summary

This Marine Notice outlines the changes to Maritime Radio SOLAS watch keeping by Telkom Maritime Services and the changes in Radio carriage requirements by small vessels ensuing from these changes.

1. The renewal of the Telkom/Department of Transport SOLAS Service Agreement was signed on the 14th January 2014. This is the Agreement whereby Telkom Maritime Services provides SOLAS distress watch keeping and Maritime Safety Information Services.
 2. The Agreement shall be fully implemented by 01/07/2015 and South Africa shall declare GMDSS Sea Area A1. Sea Area A1 is defined as:
“A coastal area within the radiotelephone coverage of at least one VHF coast station in which continuous DSC alerting is available”.
 3. The existing analogue shore based radio equipment will be replaced by digital equipment. For small vessels to interact with the digital equipment, a VHF radio with DSC capability is required. This will also ensure interoperability between all vessels.
 4. A DSC distress alert sent on VHF CH 70 has the following advantages over the traditional radiotelephone Mayday call transmitted on VHF CH 16:
 - a. A digital signal travels further than a voice signal – improved range of transmission;
 - b. Distress alert (undesignated) provided with the single press of a button;
 - c. The position is included in the initial distress alert.
 5. VHF CH 16 aural watch keeping will be maintained by Telkom Maritime Services until April 2018 to allow all vessels to make the transition to DSC carriage.
 6. 29 Mhz and 2182 khz aural watch-keeping by Telkom will cease with effect from 01/07/2015.
MN 4 of 2015 Page 2 of 2
 7. Due to the cessation of the SOLAS watch keeping by the South African coast stations on 29 Mhz it will no longer be appropriate for small vessels to carry 29 Mhz radios as a safety option in terms of item 18, Annexure 2 of the Merchant Shipping (National Small Vessel Safety) Regulations 2007.
- Categories of vessels covered by these regulations shall be equipped with VHF Marine Radios to comply with the safety requirement.
8. In summary, vessels may continue to carry 29 Mhz radios as voluntary fit equipment for intership communications, communications with clubs etc., however, these radios will no longer be appropriate to fulfill the safety requirements of the regulations from 01/07/2015.
