Newsletter / Nuusbrief: /May/Mei 2016

THE PRESIDENT, NDAC COMMITTEE AND MEMBERS

The Onderberg Specie Bonanza has come and gone. The weather was kind this year and all the days were fished. To Gustav and his committee many congrats on the superb tournament. Feedback from everybody who fished it had high praises and is committed to fish this comp again next year. To the winners, many congrats. Sail-la-Viee took top honors, with Fatikaki second and Challenger in third place. Full tournament results in newsletter.

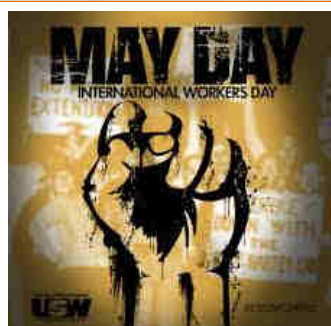

The Inhaca sponsors and skippers evening was held at the club last week and was very well attended. Thank you to Chris for the splendid food that was served to our sponsors. Final preparations for the Inhaca Challenge are going very well. Again to the entire Inhaca committee my sincere appreciation and thanks for all your hard work. Dolf Botha, who travels from Maputo for every meeting and has handled things in Maputo for us many thanks for your commitment.

The tackle box held on the 26th April on bait rigging and presentation was well attended and we had 42 members attend this. Thank you to all who assist with the bait rigging demonstrations.

Many congrats to NDAC members Gert Conradie and Johan vd Walt who fished for Mpumalanga during the Game fish nationals at Shelly beach two weeks ago. They did very well and took the gold medals for Mpumalanga at the nationals. Indeed a great achievement and we are very proud.

Sam Botha is fishing the Tuna nationals for Mpumalanga this week in the Cape. Sam, ons hou duim vas dat julle goeie weer het en groot vis sal kry.

Yours in angling
Edwin Freeman

All anglers are welcome!!!!

Department of Environmental Affairs

Operation Phakisa – specifically related to iSimangaliso MPA

24 April 2016

Dear Mr Mkefe

We would like to commend you on this initiative and welcome the proposed new network of 22 Proposed Marine Protected Areas. The MPA of greatest interest to us is the larger and expanded proposed iSimangaliso MPA & we fully support the extended protection this will offer to this amazing area of biodiversity. As a community that derives its income almost entirely from ocean related ecotourism, we are fully in favour of any measures that protect our MPAs from illegal fishing, mining, seismic surveys, petroleum activities & mariculture.

We fully support the need for no take/sanctuary areas, the value of these areas has been proven & we believe the existing sanctuary or wilderness areas should be extended right to the outer boundary of the new MPA. We support all measures to protect turtles & sharks & recognise the critical role that they play in maintaining healthy oceans and providing for tourism.

As one of Operation Phakisa's main objectives is to grow ecotourism and the goal of facilitating ecotourism is included in the objectives listed in the declaration notice for this MPA, some areas of concern for us are the following:

The proposed 3NM offshore limit for fishing & diving activities

If this limit is passed, Sodwana Bay's deep sea fishing industry will be compromised / & Sodwana may as well shut its doors. Sodwana is a world class marlin destination & fishing brings the majority of the income to our area. Recreational fishing is central to the tourism economy and the proposed restriction with have serious socio-economic impacts. Restriction of recreational fishing beyond 3 miles will result in job losses and cripple the entire community. It will also increase pressure on the inshore reefs & will result in increased user conflict between fishermen & divers, all fighting for the same small space. The proposed limit would also impact the licenced whale watching trips & other ecotourism activities.

We request that the controlled pelagic fishing zone be extended to at least **12 nautical miles** offshore, allowing the fishermen to get to the **1000m depth contour** that they require to pursue their sport.

Whaleshark Restrictions

Although whalesharks have been quite scarce here in the past few years, creating a 20 metre restriction will negatively impact this area of ecotourism and make it one of the most stringent regulations in the world. Most countries, many of whom have booming whaleshark ecotourism industries enforce a 3-5m boundary rule. We recommend that the whale shark code of conduct is enforced.

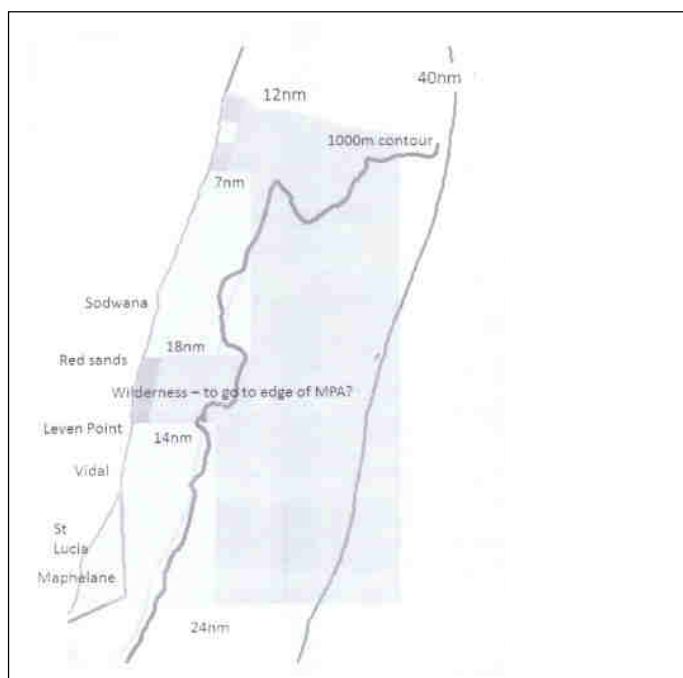

Dolphin swimming

We request a review of the rule prohibiting swimming with dolphins and believe that it should be allowed in a controlled and regulated manner. It is a great opportunity to develop a whole new area of ecotourism and create more jobs. Numerous requests are received for dolphin snorkelling/ swims and we end up losing the tourism to our neighbouring Ponta do Ouro in Southern Mozambique, where it is a booming, stand alone industry. It is well known that the same dolphin pods move between Sodwana & Ponta

We would appreciate your assistance with these matters & look forward to your positive feedback. Please see attached appendix A with the relevant supporting signatures & contact info

Sincerely

The Sodwana Bay Residents & other affected parties.
