#### History:

In the original Roman calendar,
November was the ninth month of the
year. It got its name from the Latin
word "novem" which means nine.
However, it became the eleventh
month when the Romans added in
January and February to the start of
the year. Throughout much of history,
November has often been thought of
as a somber month because it signaled
the start of winter. People would spend
the month storing up their harvest and
preparing their food and homes in
order to survive the winter.

### Mr President, NDAC Committee and Members

Big thanks to everyone for their time and dedication during October to arrange three successful boat testing days at the various venues. Thank you to all Skippers who took the time to have their boats tested for the next year.

A very windy 41st Mercury OET Bill & Gamefish Tournament started last week with only two full days of fishing. The conditions were tough with only a hand full of Gamefish, six marlin and one Sailfish caught for the week. Well done to Garth McGee and his crew who finished in third place at this year's tournament.

The next tackle box will be held at the club house early next year and details will be made available soonest by Whatsapp. I urge all members to attend these events for a bit of fun, making new friends and catching up with some old ones.

Well done to our angler of the month, Duane Joubert with a nice Dorado weighing in at 19Kg caught off Sodwana Bay in October.

Please send your photos and stories to <a href="mailto:ndac.angling@nashuaisp.co.za">ndac.angling@nashuaisp.co.za</a> to be published in the monthly newsletter.

All our members celebrating their birthdays in November. May it be a memorable day and a blessed year.

Good luck to all our members who will be taking part in the 2018 SADSAA Billfish Nationals. I sincerely hope the weather plays along and may there be good catches for the week.

Yours in Angling Sam Botha NDAC Chairman

# **News Snippets / Nuusbrokkies:**

2018

**Boottoets Dae/Boat test Days** 

Malelane/Nelspruit/Hazyview

#### How is boat buoyancy calculated?

Multiply your boat's volume, 54, by the amount of the boat you want underwater --- for example, 50 percent, or 0.50. Multiply the result, 27, by 62.4, the weight of 1 cubic foot of fresh water. The result, 1,684.8 is the number of pounds of buoyant force keeping half of your boat out of the water.

### What is a buoyancy certificate?

Buoyancy of Small Vessels. ... In the context of boating in South Africa it has for over 20 years been used to refer to the bottles and/or foam placed inside the boat in order to maintain flotation in a damaged or flooded state and that is the use of the word buoyancy in the regulations.

Your buoyancy certificate should be valid for at least five years. Many are valid for the life of the boat unless there has been damage to it. Look at the certificate to see that it hasn't expired prior to your inspection.

# **Notice Board / Kennisgewings Bord:**

We are delighted to announce that we're moving to a new location in 2019! After a fantastic nine years, it's time for us to say goodbye to our current shop in pursuit of a bigger and better space at **Riverside Junction Nelspruit**, which will allow us to offer an even larger selection of products and services! At our new store, situated right next to **Eskort Butchery Mbombela**, we will continue to offer the same friendly service to all our customers.

We will continue to trade as usual at our existing shop at 13 Rapid Street in Riverside Industrial CID until we make the move, and we're looking forward to taking care of all your fishing, boating and water sports needs for the entire Festive Season!

Keep watching our Facebook Page for our Grand Opening announcement and more info regarding our move!
