#### UIT DIE VOORSITTER SE PEN / CHAIRMANS REPORT:

Mr. President, NDAC Committee and Members

I trust that all our members and families had a wonderful festive season and are safely back home. May all of you have a prosperous and blessed 2020.

There were reports of good catches from the members during the holiday season, well done to all of you. Sam Botha was named angler of the month with 6 Billfish caught during the last 2 Months off Sodwana and Inhaca Island the catches include a Short Bill Spearfish, one Black Marlin, three Blue Marlin and one Stripe Marlin.

Please send your photos and stories to [ndac.angling@nashuaisp.co.za](mailto:ndac.angling@nashuaisp.co.za) to be published in the monthly newsletter.

Our members' area was officially opened in October 2019 and I want to invite all members to please make use of it at the club house, you are more than welcome to come and enjoy a cold one with friends.

To all our members celebrating their birthdays in February, may it be a memorable day and a blessed year.

The next Tackle box will be held at the club house on February 19th, Edwin Freeman will be sharing his Guatemala experience with us. Full details will be made available soonest by WhatsApp. I urge all members to attend these events for a bit of fun, making new friends and catching up with some old ones.

Yours in Angling

Sam Botha

NDAC Chairman

People born in February are interesting and intelligent but are preoccupied with abstract thoughts. These people are also extremely sensitive and can be easily hurt. They are friendly by nature but may feel isolated at times. They are exceptionally loyal and devoted to the people they love. Another interesting trait is that, these people can read other people easily, but choose to reserve their comments. They are little low on their self-esteem but if a situation demands, they can surprise everyone with their hidden talents. By nature, they are attracted to places of amusement and. Entertainment and leisure are essential parts of their life and they love freedom. Generally, they are shy, but when held back or forced to do something against their will, they can be aggressive. They are introverts in the sense that they show their abilities only when required. They do not believe in unnecessary publicity of their talents or capabilities, one of the reasons they are quite modest and discreet.

Those born from February 1st to February 18th are members of the Aquarius zodiac signs. Members of the Aquarius can be identified by their unique style and their flowing personalities. For people born February 19th to February 28th/29th, they are born under the influence of the Pisces sign.

## Notice Board / Kennisgewings Bord:

The junior barbel competition was held on the 1<sup>st</sup> of Feb at Kwanyoni on Ben's farm, 17 family's with total of 25 children joined us for the day.

It was a beautiful summers day in the Lowveld. The children and parents all very excited started to gather at the water around 8am, all of them choosing their favorite spot to target the elusive barbel. The bite was slow on the barbel, but the kids kept themselves entertained by building their own reed fishing rods and catching the small "kurpers", it kept them busy for hours.

At the end of the day a total for 3 barbel was caught weighing in at 1,1kg, 2.6kg and Taylor Gower with the biggest one of 3,5kg.

All the kids received prizes for participation and thoroughly enjoyed themselves.

Thanks to the following people that contribute to the success of the competition.

- Solly's Angling Nelspruit.
- Bekmar – Irrigation made Easy.
- Kwanyoni - Ben for the use of his dam and property.

## Kiyoshi Kimura expensive Bluefin Tuna!!!

Back in January last year, Kiyoshi Kimura set the record for the most expensive tuna purchase, throwing down a whopping \$3.1 million USD at Tokyo's Tsukiji Fish Market. Though not as extreme as last year's record-breaker, this year's hatsuseri, the first wholesale fish auction of the year, saw another big purchase of \$1.75 Million USD at the Toyosu Fish Market, marking the second-highest purchase in history.

Once again, the buyer was Kiyoshi Kimura, CEO of the popular sushi chain Sushizanmai, which prides itself as the "King of Tuna." It's worth noting that such a high-scale auction only lasts for a few minutes. Most of the time is spent examining the quality of the fish and estimating the fatty grade of the meat as well as its flavor. It's only after this where the auctions begin: bidders make silent hand gestures denoting the amount they're willing to drop as the auctioneer rolls through the totals. Usually, Kimura can be seen at the front of all the action, but this auction saw him calling on one of his representatives to take over the bid.

Prices during the first wholesale auction of each year in Japan are typically regarded as the most important of the year. This often results in "outbidding" for prized fish, purchasing them for above their normative value to reign in and celebrate the new year. This in turn, gives the bidder a variety of press and media opportunities that further advertise their restaurants.

- Bluefin are the largest species of tuna. They can get up to six and a half feet long and can weigh as much as 550 pounds! That's a lot of tuna!
- Bluefin are prized fish for use in sushi. Unfortunately, the sudden explosion of sushi popularity worldwide has increased the hunting of these fish to the point that they are being fished faster than they can reproduce, meaning that sooner rather than later they will be completely wiped out. That is unless things change and change soon.
- Bluefin Tuna can live upwards of forty years! Let's face it, that's impressive.
- Atlantic Bluefin Tuna are actually warm-blooded! This is extremely rare in fish and should be something to be relished, not hunted to extinction.
- Bluefin Tuna are highly migratory and Atlantic Bluefin Tuna can migrate from the Newfoundland area of Canada all the way to the Mediterranean and the Gulf of Mexico!
